**IMPORTANT MESSAGE REGARDING YOUR
MAINTENANCE BOOK AND WARRANTY COVERAGE**

Your New Vehicle Limited Warranty requires that you perform the scheduled maintenance at the time or metrage shown in your Owner's Manual. If you do not do so, and your vehicle fails as a result of your failure to maintain it properly, repairs may not be covered under your warranty.

DaimlerChrysler recommends that you use this Maintenance Service Schedule Book to keep a written record of maintenance performed on your vehicle.

**For 24-hour Roadside Assistance
Dial 1-800-363-4869**

- Give us your Vehicle Identification Number, licence plate number and odometer reading.
- Tell us where you are and the number from which you are calling.

See page 20 for details.

MAINTENANCE Scheduled maintenance must be completed to provide the best vehicle performance and reliability. The limited warranties in the warranty booklet DO NOT COVER repairs required due to improper maintenance. We strongly suggest you keep track of scheduled maintenance and keep receipts or other documents. Use only recommended Mopar Lubricants and genuine Mopar® Parts. In the event that a condition arises between maintenance intervals, please contact your retailer. AVOID PROLONGED PERIODS OF IDLING.

NOTE: WHERE TIME (MONTHS) AND METRAGE ARE INDICATED, FOLLOW THE INTERVAL THAT OCCURS FIRST.

INTRODUCTION

The oil change indicator system will remind you that it is time to take your vehicle in for scheduled maintenance. Based on engine operation condition the oil change indicator message will illuminate, this means that service is required for your vehicle. Have your vehicle serviced as soon as possible, within the next 800 km. The oil change indicator message will not monitor the time since the last oil change. Change your vehicles oil if it has been 6 months since your last oil change even if the oil change indicator message is NOT illuminated. Change your engine oil more often if you drive your vehicle off-road for an extended

period of time. **Under no circumstances should oil change intervals exceed 10,000 km or 6 months, whichever comes first.** Your dealer will reset the oil change indicator message after completing the scheduled oil change. If this scheduled oil change is performed by someone other than your dealer the message can be reset by referring to the steps described in the Owner's Manual.

The performance of all scheduled service work is required to maintain your vehicle in good operating condition. DaimlerChrysler Canada Inc. reserves the right to deny warranty coverage if the vehicle has not been properly maintained. While we do not insist that such work be performed by factory authorized retailers, we strongly recommend that an authorized Chrysler, Jeep® or Dodge Retailer perform this work.

AT EACH STOP FOR FUEL

- Check the engine oil level about 5 minutes after a fully warmed engine is shut off. Checking the oil level while the vehicle is on level ground will improve the accuracy of the oil level reading. Add oil only when the level is at or below the ADD or MIN mark.
- Check the windshield washer solvent and add if required.

ONCE A MONTH

- Check tire pressure and look for unusual wear or damage.
- Inspect the battery and clean and tighten the terminals as required.
- Check the fluid levels of coolant reservoir, brake master cylinder, power steering and transmission and add as needed.
- Check all lights and other electrical items for correct operation.
- Check and clean wiper blades. Replace if required.

AT EACH OIL CHANGE

- Change the engine oil filter.
- Inspect the brake hoses and lines.
- Check the manual transmission fluid level.

VISUAL INSPECTIONS —

INSPECT FOR SIGNS OF COMPONENT DETERIORATION AND PHYSICAL DAMAGE.
